NATURE AND NOTHING ELSE

BIVOUACS HUTTOPIA, NATURE AND NOTHING ELSE

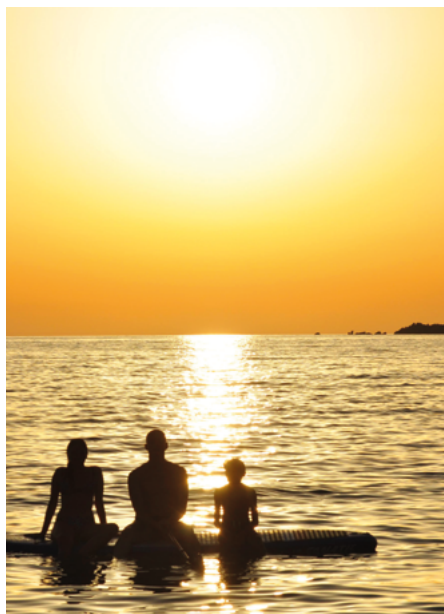

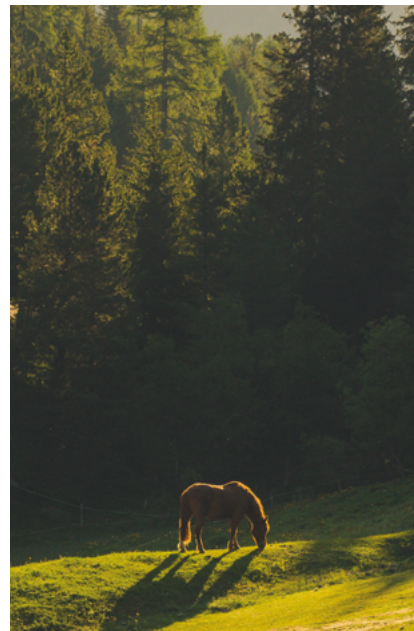

With the soaring popularity of touring holidays and van life, it has become more and more difficult for road trippers to find a place to sleep in the great outdoors. Too often, we end up spending the night in a car park or a spot that's overcrowded or illegal... A world away from the vision of nature and wide open spaces that we had in mind before we set off.

Bivouacs Huttopia offers wild spots located on remarkable private land. Some by lakes, some in forests, some with views of vineyards or mountains, all carefully selected by our team. And all available to book in just a few clicks so you can spend the night feeling like you're alone in the world - in a van, in a roof tent or simply under the stars. It's the guarantee of a successful road trip - in total serenity!

At a Huttopia Bivouac Spot, it's about nature and nothing else. No accommodation and no superfluous facilities. You're fully immersed in nature. The electricity, water and composting toilets are on board your van.

For everything else, look to the local economy! Bars, farms and small shops allow you to get what you need while also supporting local businesses.

Need a shower or to do some laundry? **Thanks to our network of Huttopia and OnlyCamp campsites, you'll easily find somewhere nearby with running water and maybe even a few services (swimming pool, activities, Café-Comptoir, etc.) where you can stop off for a bit of extra comfort before getting back on the road**
